CheckingExercises/2023/Update

11 March 2024

If you are not the headteacher/principal, please forward this email on to the appropriate person

Dear Headteacher/Principal,

End of 2022/23 Cycle

Currently schools and colleges can view and download their revised performance data and access decisions on amendment requests made in Errata on the DfE School and College Checking Exercises Website here: [DfE School and College Tables Information \(education.gov.uk\)](https://education.gov.uk) and contact our helpline on 0845 3077867 or by using the 'Contact Us' form on the homepage of this website.

The 2022/2023 performance data cycle ends on **28 March 2024 at 3pm**. The current website, helpline and 'Contact us' form will be closed after that time. Until then, you can continue to access the site and raise queries via the existing site and helpline.

If you require data from the website, we encourage you to download this in advance of the closure of the website. Otherwise the data will not be available until the end of April via 'Get Information About Pupils'.

Any attempts to access the website after this time will be re-directed to DfE's new service website. Details of the new service can be found below.

2022/2023 16 to 18 Retention Data

Please note that for this year, schools and colleges will be able to view their 2022/2023 16 to 18 retention data on the [View your education data \(VYED\)](https://education.gov.uk) service here: [DfE Sign-in \(education.gov.uk\)](https://education.gov.uk). This will be available from **15 April**. If you encounter any difficulties accessing the VYED service, please use this [contact form](#).

Please note that enquiries in relation to retention data should be raised with the DfE helpline here: [Contact the Department for Education - Contact type - DfE Online Forms](#).

2022/2023 Published Data

School and college performance measures are still available to view and compare here: [Search for schools, colleges and multi-academy trusts - Compare school and college performance data in England - GOV.UK \(compare-school-performance.service.gov.uk\)](#).

2022/2023 16 to 18 retention data will be published on Thursday 18 April and final data will be published on Thursday 25 April 2024.

2023/2024 Service

The 2023/2024 performance data checking service will use a new website, which will use DfE Sign-In. **Please ensure that you have a DfE sign-in account to access this service, details on how to create an account can be found here: [DfE Sign-in \(education.gov.uk\)](#).** If you encounter any difficulties creating a DfE Sign-In account or have forgotten your login details, please go to this [contact form](#).

We will provide further details on the new service in mid April including the official launch date of the new service, how to get access, our new helpdesk information, and the planned schedule of performance data checking activity for 2024. These will be sent to all school and college headteachers and principals so please check that your Headteacher/Principal contact details are correct on '[Get information about schools](#)' (GIAS).

If you do not receive any communication in April, please check your spam or email filters in the first instance.

If you have any queries regarding the 2022/2023 cycle, or any other performance data related queries after **28 March** and before we confirm the new helpline details, you can go to [Contact the Department for Education - Contact type - DfE Online Forms](#) or call the DfE National Helpline on **0370 000 2288**.

The information contained in this email provides schools and colleges with all the important information that we can share at this point, so please do not send any queries regarding the timing or details of the 2023/2024 cycle to the DfE National Helpline as they will be unable to assist.

Yours faithfully

Department for Education
